10 JAN 1963

MEMORANDUM FOR: Intelligence Staff, OSA

SUBJECT : Request for Information on U-2 Systems

1. A meeting was held 1400 hours, 11 January 1963 concerning present systems and configurations used on the U-2 aircraft. It is anticipated that some system(s) will be redesigned in the near future and a study is being conducted to determine if all information collected by the U-2 systems is still a valid requirement.

2. Request your staff provide answers to the following questions as regards systems III and VI:

a. Who assigns the requirement to us for any and/or each specific frequency band?

b. Who gets the information and read-out when a mission has been completed?

c. Who determines if the take as concerns frequency, clarity, and length of recording is adequate?

d. Are these present requirements still valid or should some be deleted or added?
